Tercihimiz
İSVİÇRE KERESTESİ

DOĞAYI KORUMAK

TR İSVİÇRE KERESTESİNİ TERCİH ETME SEBEBİMİZ

Sürdürülebilir bir gelecek için en uygun malzeme kerestedir. Muazzam bir CO₂ hapsedicisidir. Ayrıca, İsviçre'de yıllık yetiştirilen ağaç sayısı kesilen ağaç sayısından daha fazladır.

SWISS KRONO ürünleri, sürdürülebilir ormancılık prensiplerine uygun olarak doğal yollarla elde edilen İsviçre kerestesinden imal edilir. Bu sayede nakliye mesafelerini kısaltarak mükemmel bir ekolojik denge sağlıyor ve evlerinize İsviçre ormanlarından bir parça getirebiliyoruz.

EN WHY WE RELY ON SWISS WOOD

Wood is the material par excellence for a sustainable future. It is a fantastic CO₂ reservoir and what's more, the wood grown in Switzerland exceeds the amount harvested per year. SWISS KRONO products are made of almost 100% Swiss wood – naturally from sustainable forestry. This helps us keep transport distances short, achieve excellent eco-balances and bring a piece of the Swiss forest home to you.

DOĞAYA KARŞI SORUMLULUK

TR

YENİLENEBİLİR HAMMADDE

Ormanlar, ürünlerimizde kullandığımız doğal yenilenebilir hammadde olan kerestenin ana kaynağıdır. (keresteye kaynaklık eder.)

KARBONDİOKSİTSİZ ÜRETİM

Karbondioksit emisyonunu düşürme konusundaki kararlılığımızla tüm ürünlerimizi karbondioksit salınımsız bir şekilde üretmekteyiz.

ZARARLI MADDELER İÇERMEZ

GRAND SELECTION döşemeleri doğal malzemelerden üretildiği için zararsız olmakla birlikte ftalat ve PVC gibi zararlı malzemeler içermemektedir.

SÜRDÜRÜLEBİLİR KULLANIM

SWISS KRONO ağacın termal geri dönüşüme kadar birden çok kere kullanılıp hammaddenin sürekli değerlendirilmesi anlamına gelmektedir.

EN

RENEWABLE RAW MATERIAL

The forest provides the natural renewable raw material wood that is used to make all our products.

CO₂ NEUTRAL PRODUCTION

We are committed to actively reducing CO₂ emissions and already manufacture all our products in a CO₂ neutral way.

FREE OF HARMFUL SUBSTANCES

GRAND SELECTION floors are made of natural materials and are therefore harmless and free of harmful substances such as phthalates or PVC.

CASCADING USE

SWISS KRONO stands for the consistent multiple use of wood, ensuring the raw material remains in the cycle until it is thermally recycled.

SAĞLIKLI & EKOLOJİK BİR YAŞAM İÇİN

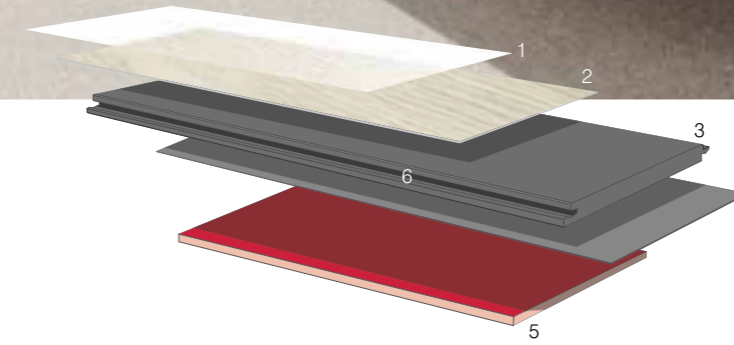

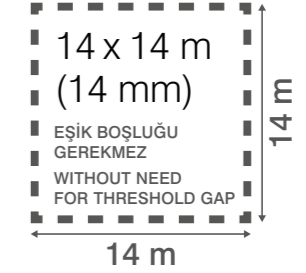

SUYA DİRENÇLİ ÖMÜR BOYU KULLANIM

TR SU GEÇİRMEZLİK TEKNOLOJİSİ
GRAND SELECTION döşemeleri ömür boyu su geçirmezliğini korumaktadır; dolayısıyla, yüksek nem seviyesi olan bölgelerde kullanım için de uygundur.

EN AQUASTOP TECHNOLOGY
GRAND SELECTION floors remain water-resistant for a lifelong use, which means they are also suitable for use in areas with increased moisture levels.

RİJİT ORGANİK ORTA KATMAN

TR TERMAL STABİL ORTA KATMAN

Sıkıştırılmış formdaki gri orta katman, bütün GRAND SELECTION ürünlerinde standart olarak bulunur ve fazladan stabilite sağlar. 14x14m (14 mm)'ye kadar alanlarda genişleme contasına veya profile gerek duyulmadan kullanılabilir.

EN THERMALLY STABLE CORE

The highly compact grey core is standard on all GRAND SELECTION products and adds extra stability. Areas up to 14x14m (14 mm) are possible without the need for expansion joints or profiles.

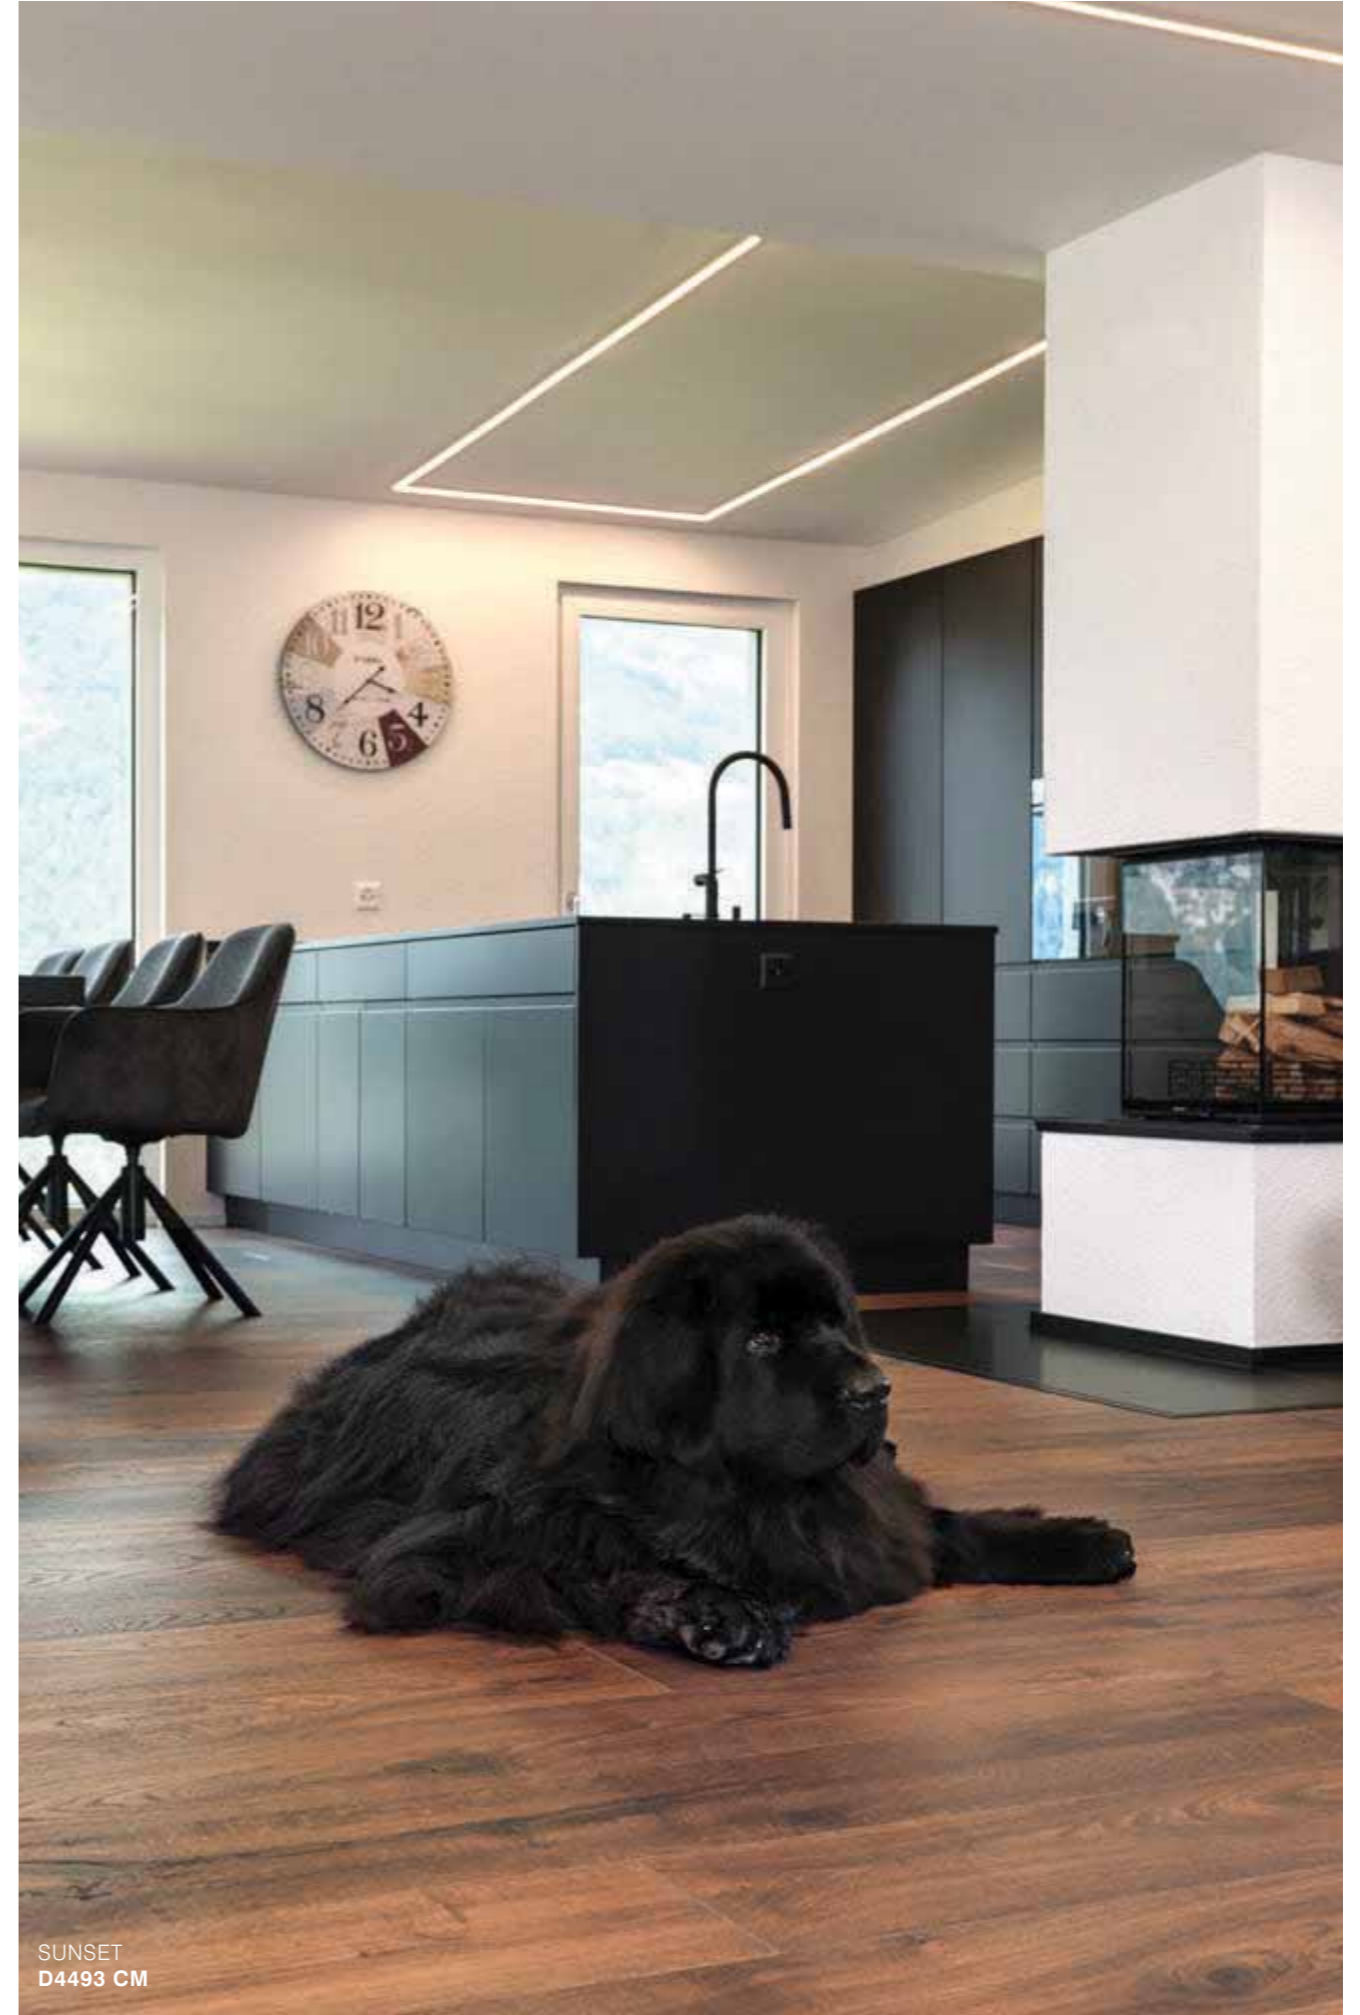

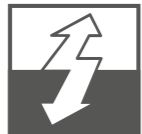

SAĞLAMLIK VE DAYANIKLILIK

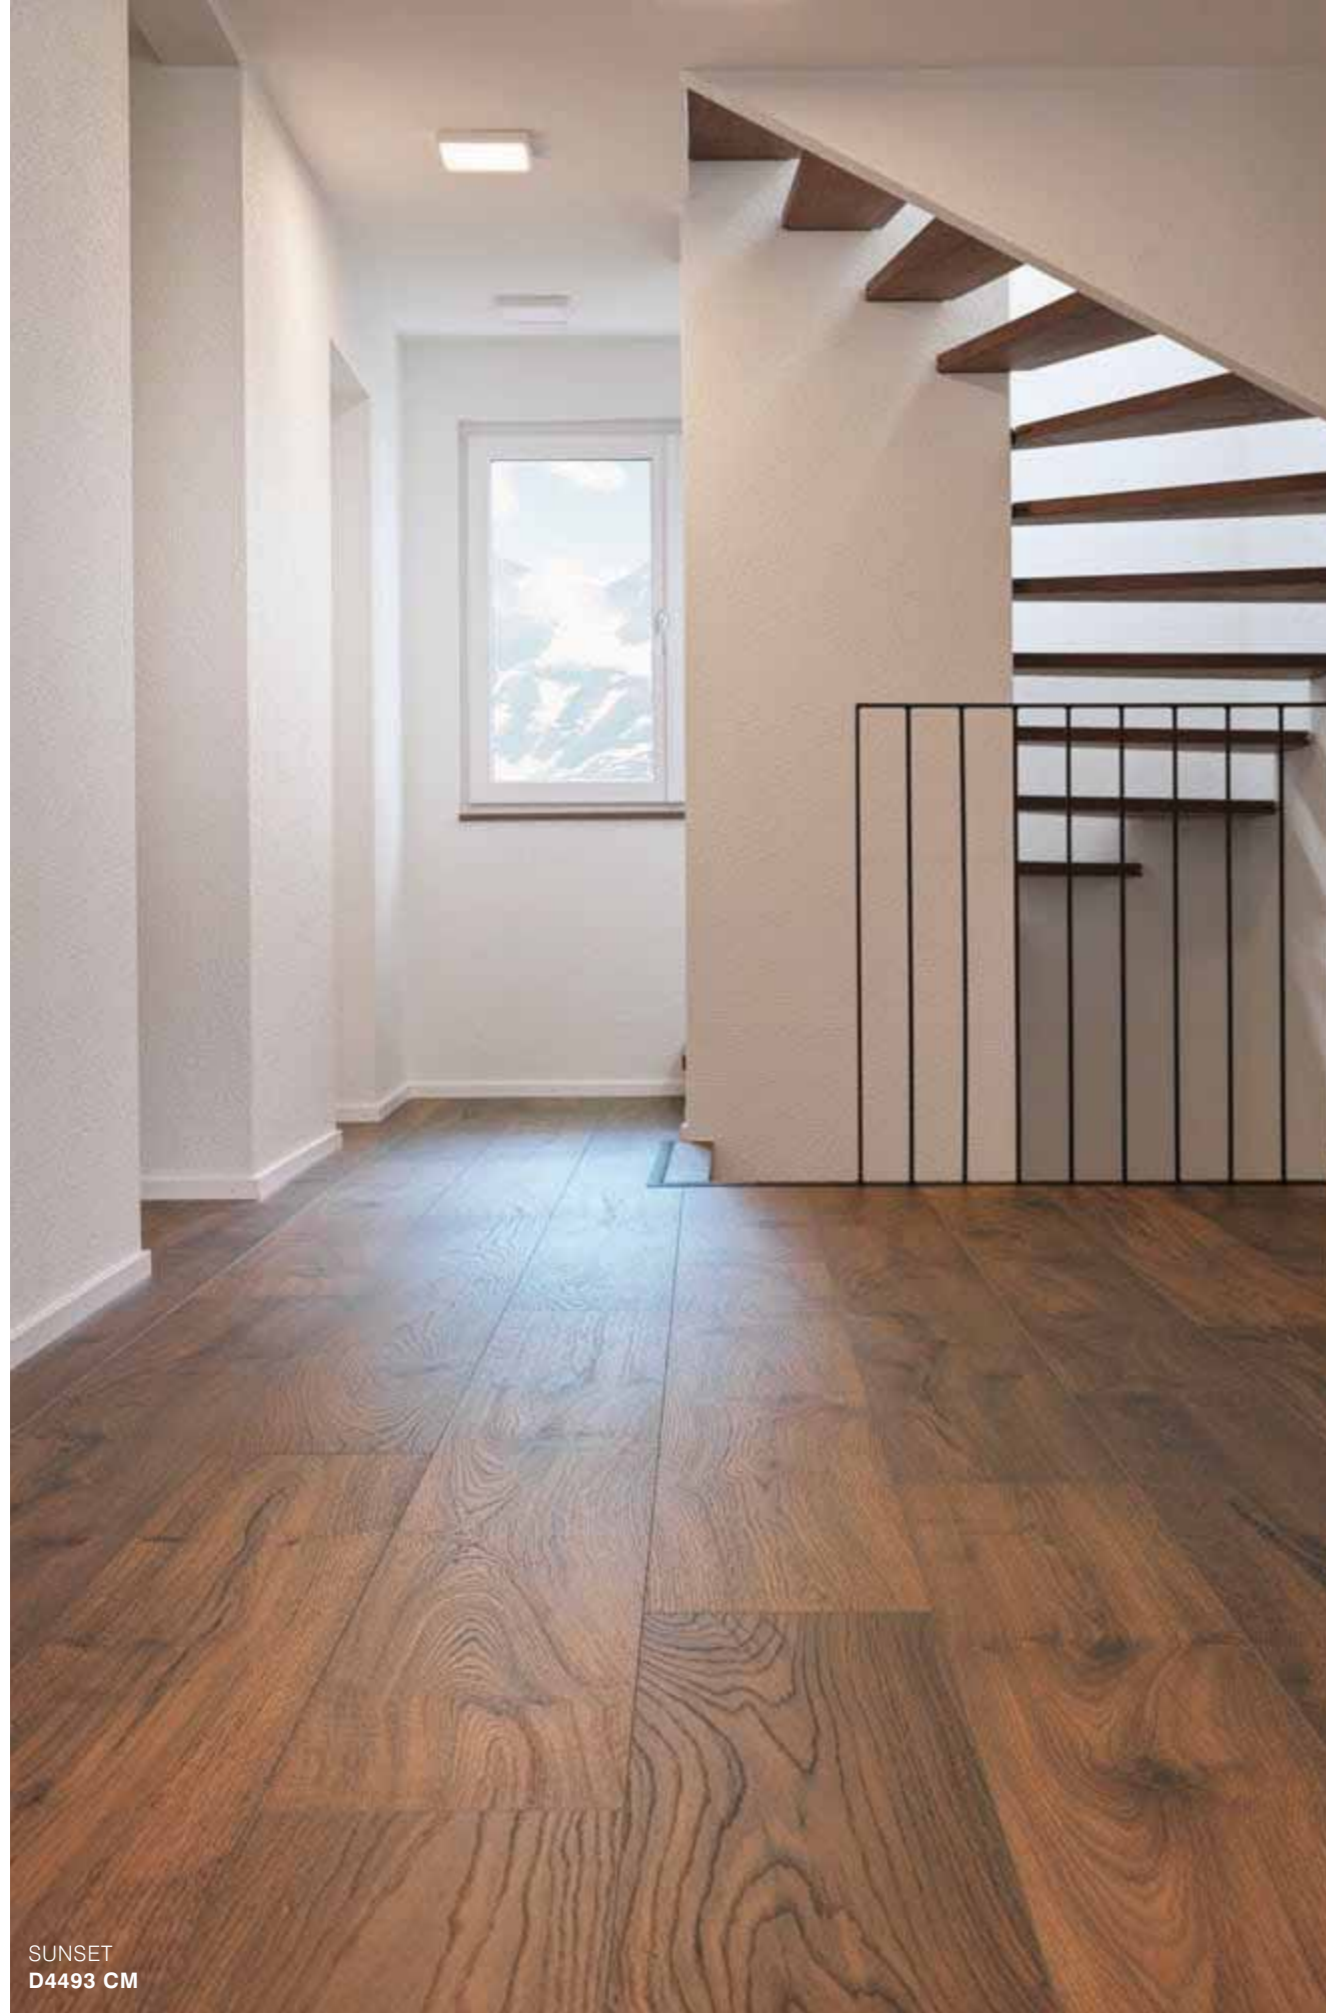

TR YOĞUN KULLANIMA UYGUNDUR

Darbelere ve suya karşı dayanıklıdır. Sağlam orta katmanı ve aşınmaya dirençli yüzeyi sayesinde, çizik veya leke oluşumuna izin vermez. Bu döşemelerin hepsi kullanım sınıfı 33'e göre üretildiği için yoğun kullanılan ticari alanlara ve günlük hareketli aile yaşantısına mükemmel bir şekilde uyum sağlar.

EN SUITABLE FOR INTENSIVE US

Be it falling objects or splashing water – the exceptionally strong core and highly abrasion-resistant surface mean that scratches and stains stand virtually no chance. These floors are all designated as utilisation class 33, making them perfect for heavily used commercial areas or for busy everyday family life.
